Maureen J. St. Germain is a devoted Flower of Life course facilitator trained by Drunvalo Melchizedek in 1994. She leads dolphin swims and has a very special connection with the dolphins, Angels, Hathors and Ascended Masters. Raised a Catholic, she has trained with the Essenes, completing their Minister's training, studied the Edgar Cayce material, the teaching of the Ascended Masters and has practiced Alchemy for 30 years.

She knew the moment she saw Drunvalo's video that she would teach this very special course. "For me, the Flower of Life Workshop felt like a culmination of 30 years of research and study". Maureen is a master numerologist and has been leading study groups and training classes in esoteric studies since 1976.
