Leading workshops and tours since 1994, Maureen St. Germain's focus is personal development and spiritual awakening. She has developed an impressive array of practical tools to assist individuals in applying quantum physics using Sacred Geometry. Maureen's workshops and seminars are in demand all over the world. She is insightful, compassionate, intuitive and funny. As a seeker she shares the knowledge she has gained from many years in the study of ancient truths.

Featured in the book, "*Famous Wisconsin Mystics*", she is the author, voice and composer of guided meditation CDs: *The Merkaba*, *Rainbow Angel Meditation*, *Crystal Elohim Meditation*, the two-CD set *Sounds from the Great Pyramid* and others. Newer releases include *Fountain of Youth* and *Open Doors*. These CDs are available through **New Leaf Distributing, Baker & Taylor** and other outlets worldwide.

Maureen is the mother of four adult sons, a former nonprofit CEO, fundraiser and lobbyist. She made several successful career changes in her life and now leads seminars on becoming your own Genie. She hosted local TV shows for over five years in three different cities. She appeared on National TV in **National Geographic's** "Egypt," toured with Robert Bavaul and leads tours in Egypt, Spain, France, Tibet and other sacred locations.

After presenting the "*You are the Genie in the Bottle*" workshop in 1995 to standing room only audiences at a national association meeting, the demand for this powerful work in manifestation became international. Maureen provides high caliber seminars and training that will assist individuals on their path of self-discovery. She considers herself a facilitator rather than a teacher, helping her students to remember what they already know.
