"I'm the Betty Crocker of the New Age Movement," explains Maureen St. Germain. "I give you the basic ingredients, but you still have to add your personal intentions." As owner of Transformational Enterprises, Maureen provides customers with seminars, guided meditation CDs, essential oil blends, flower and crystal essences, specialty oil blends to go with her meditations, Symbalas, sacred jewelry, and guidance for all who seek it.

Maureen holds seminars all over the world, recently completing a trip through Europe. Through these seminars, Maureen saw the opportunity to reach more people in more places. So in 2000, Maureen began producing and releasing her guided meditation CDs.

Her first album was *Meditation to the Archangels—Rainbow Angel Meditation*, which guides the listener to a calm, relaxing state. Maureen also gives them the ability to make it interactive and personalize it for each listener. "It makes it different everyday," says Maureen. This album is also available in Spanish, *La Meditación del Arco Iris de Angeles*. Meeting a woman from one of her classes, she discovered that her healing, velvet voice was a perfect fit for the translation.

Another successful CD has been her *Mantras for Ascension*. This album features two different chants: the Hebrew "Kadoish Kadoish Kadoish," recorded with a live choir, and the

Egyptian Hathor chant. These are extremely powerful for clearing the emotional and spiritual body. "It's a colonic for your Pranic Tube," says Maureen with a note of humor in her voice.

Other CDs offered are *Merkaba II*, for use with Drunvalo Melchizedek's Flower of Life workshop, and *Sounds from the Great Pyramid*. The latter double album was actually recorded live in the King's Chamber of the Great Pyramid in Egypt during a two-hour toning session. The effects of her meditations and the mysticism of this hallowed place combine to make a unique listen. There's also *Fountain of Youth*. "It's good for the common old," jokes Maureen. "It takes you to a place where you clear energy and come out with a wave of relief." Along with making you look and feel younger, Maureen has found *Fountain of Youth* to be a great sleep aid and pain reducer for chronic pain sufferers.

In the future, Maureen hopes to offer more seminars and CDs, including an album entitled *Open Doors – Selling Your Home and Releasing Other Aspects of Your Life*, and a guided meditation CD entitled *Dancing in the River of Golden Opportunity*.
